

**December 6, 2011
8:30 am - 11:00 am**

Vigo Co. Fairgrounds

Prepare NOW to manage your Cover Crops this Spring

Successful establishment is just the beginning of a good cover crop program.

Focusing on methods to insure a successful burn-down, this workshop will help you avoid a partial cover crop kill and its subsequent headaches.

Sponsored by:
Clean Water Indiana
Sullivan County Farm Bureau

Presented through a partnership of:

Purdue Extension
Clay Co. SWCD
Greene Co. SWCD
Sullivan Co. SWCD
Vigo Co. SWCD
West Central Indiana Watershed Alliance
Ceres Crop Solutions, LLP
Conservation Agriculture

PARP Credit Workshop

Controlling Cover Crops

*Plan Today for Your
2012 Spring Management*

This workshop made possible through a
Clean Water Indiana grant

**Matt Mace,
Ceres Crop Solutions**

Herbicide Carryover
Pest Considerations

10:45 - 11:00

**Jim Luzar,
Purdue Extension**

Regulatory PARP Topic

Mike Plumer

Mike is a retired natural resources educator and researcher with the University of Illinois Extension and

current consultant with Conservation Agriculture, based out of Creal, Illinois (Evansville, IN area). Plumer has conducted whole-farm research for over 30 years and is exceptionally well-respected for both his knowledge and his presentation style. His long-term work in no-till with annual rye cover crops gives him exceptional insight to real-world conditions.

Matt Mace

Matt is the Crop Sales Specialist for Ceres Solutions in Brazil and coordinated delivery and fly-on of cover crops in Clay, Sullivan, and Vigo Counties for their

2011 Clean Water Indiana grant program. A graduate of Purdue University, Mace has worked extensively with agronomist Betsy Bower throughout his career with Ceres. One of his topics at the 2011 Ceres Knowledge Events was herbicide residual and cover crops.

PARP Credits

Bring your Private Applicator certification card and \$10 to receive credit for this meeting
